

Mini Challenge 1

Style a website

(Recreate a simple[r] Instagram post)

Instructions

Recreate a simple(r) Instagram post.

- You may use the Internet and your notes for reference, but you may not communicate with any person for help.
- You may **NOT** use Facebook Messenger or any chatting apps.
- You may **NOT** communicate with your classmates physically.
- You will not be graded on the HTML elements you use.
- You may use the “Inspect Element” feature on your recreated Instagram post, but you may not use it on the actual Instagram page. You may also not view the source code of the Instagram page. These will be considered cheating.
- When you are done, zip all your files and name it MiniChallenge_CSS.zip
- Submit the file to Canvas. If you know the internet will be slow, submit earlier to meet the deadline (**end of class**).
- No Javascript needed.
- For any clarifications, ask your instructor.
